

Hanging Protocols: Agfa will be onsite October 1st through the 4th. They will visit each reading room/subspecialty and will continue with the optimization of hanging protocols.

1 drop-in session scheduled; location to be determined.

Reading Room	UMASS Physician Champion	Date	Time
Abdominal (Body) / Pediatrics	Dr. Goldstein / Dr. Gauguet	Oct 1	08:00 – 12:00
Neuro	Dr. A Chen	Oct 2	08:00 – 12:00
Breast Imaging	Dr. Newburg	Oct 3	08:00 – 12:00
Chest / MSK	Dr. Dill / Dr. Sereni	Oct 4	08:00 – 12:00
Interventional / Nuclear Medicine / Neuro-Interventional	Dr. Harman and Dr. de Macedo Rodrigues / Dr. Licho	Oct 1	13:00 – 17:00
Emergency	Dr. B Chen	Oct 2	13:00 – 17:00
Cardiology	Dr. Aurigemma	Oct 3	13:00 – 17:00
drop in training session	tbd	Oct 4	13:00 – 17:00

There are some follow up actions that will be addressed on an individual basis with the physician champion that made the request.

Relevancy Rules: Work has been completed for missing or wrong body part. We should see more consistency with relevant priors.

Slowness of Retrievals – Heart & Vascular: Agfa moved an approved change to our production servers on Thursday 9/27. The change will help free up un-used memory. We are now using a java mechanism which is more efficient. This change is complete and should have no impact to end users.

PACS Home Workstations: The new radiology diagnostic image has been completed; workstations delivered starting on Friday 9/21.

iSite (ImageCast – RIS/IC) Migration: We're currently migrating 2.1TB/daily. Estimated completion date 11/11/2018.

CareWell: Go-live 10/1/2018 at 8:00a.m. All pertinent Activities Overviews have been updated to include CareWell exams; CareWell exams will be intermingled with other UMass Memorial CR exams.

IR Images in Xero: IR imaging not working in Xero; subtracted images are the issue. This is impacting cardiac imaging as well. The fix will be available in EI version 8.1.3.

PowerScribe 360 Swat team: The following issues have been completed:

- Addendums not being marked as addendum in PS360
- Line feed not working
- Medication updates being sent to PS
- All results filing back into PS
- Up-to-Date formatting issues

Follow up on the findings/impression issues will be done separately. All future Swat team meetings have been canceled.

Barco QA Web: Moved out to diagnostic workstations on 9/26

lifeIMAGE: Upgrade to version 5.5 on 9/6/2018; Java updated on workstations 9/25. Upload issues should be resolved.
